

August 2011

Survey Crews in Huron A Neighborhood starting in August 17, 2011

The City's survey consultant, WSP SELLS, Inc., will be conducting additional topographic survey in the Huron A neighborhood starting the week of August 15, 2011 (weather permitting) and continue for approximately two weeks. The survey will be performed along Vassal Street, northern Lakeview and Worthington Streets.

All members of the survey crew will carry identification, a letter of intent from the City of Cambridge and will wear clothing designating their association with WSP SELLS.

The surveyors will collect information from the center of the road to approximately 10-feet behind the back of the sidewalks on both sides of the street and will locate front building corners, porches, and other site features critical to the design of the project. This may mean that the survey extends onto private property.

This survey will provide information for the engineering and design of the upcoming sewer separation and surface improvements.

If you would like any additional information related to this work, please contact Catherine Daly Woodbury, City of Cambridge DPW Project Manager, at 617-349-4818.
